

HSK Level 3 Curriculum

Total Duration: 60 Hours

Note: The textbook suggests 2-4 hours per lesson with a total of 35-40 hours. However, to avoid rushing through the material and to provide a comprehensive understanding, it is recommended to allocate 4 hours per lesson. Achieving proficiency at HSK Level 3 often requires additional practice, and the estimated total study time can range from 150 to 200 hours, including both classroom instruction and self-study. This estimate aligns with the guideline that HSK Level 3 is suitable for students who have attended Chinese classes for 2-3 hours per week over the past eighteen months, translating to approximately 150-200 hours of total study time.
